

Chandan Sharma

Nine years across ventures, social impact, scaled edtech, and regulated healthcare enterprise. Judgment where engineering adopts the system, not where decks age out.

Led eight at BYJU's Future School (2021–22, post WhiteHat Jr integration) and five at Birlasoft. Open to remote or relocation.

PRACTICE FOCUS

Design systems and component governance (Figma, RN)

Healthcare and high-stakes workflow UX

Research-through-production collaboration

Team building, critiques, hiring, writers and researchers

AI-assisted product surfaces with compliance awareness

Workshop facilitation with CXO and engineering audiences

ACHIEVEMENTS & AWARDS

Birlasoft — Customer Centricity; Future Oriented; Birlasoft Values (internal recognition)

BYJU's Future School — Perseverance Award; Enterprising Mind; 10x Thinking 10x Impact (2021–22, internal)

Teach For India — Fellowship cohort selection, top ~7% (2017)

EDUCATION

University of California, San Diego — Interaction Design (2021–2022)

University of Delhi — Business Management (2012–2015)

Google — Fundamentals of UX Design (2021)

EXPERIENCE

Birlasoft — Senior UX Consultant

2022 – present · Stryker (USA), Hewlett Packard Enterprise · Led team of 5 (2 designers, 1 junior UX researcher, 1 UX writer, 1 analyst) · Enterprise delivery pod (narrower span than prior eight-person edtech org)

- Extended design system in Figma for React Native across assigned programs.
- Shipped AI-assisted recommendation and workflow UX for Stryker robotic-surgery operations; paired qualitative study with SQL-driven analytics to clear bottlenecks and align engineering rollout; met 100% on-time CXO milestones on assigned programs.
- Contributed to CX and automation GTM: offerings tied to ~\$2M revenue target, 27 new deals YoY, +25% YoY consulting packages; codified 80+ UX templates to shorten delivery.
- Shipped AI-assisted field-service experience for HP (diagnosis, parts ordering, turnaround); tightened decision paths for high-ambiguity agent edge cases.

WhiteHat Jr → BYJU's Future School

2020 – 2022 · APAC and North America · Post-2021 absorption into BYJU's Future School: remit expanded from new initiatives to portfolio-wide user insights and eight-country delivery

BYJU's Future School — Manager, user insights

2021 – 2022 · Led team of 8 (4 designers, 2 UX writers, 2 analysts)

- Scaled design system of 30+ HCI-oriented components (2× handoff speed, 50% fewer inconsistencies across three squads); six-plus prototypes cut engineering cycle time 25%; launches exceeded 74% adoption.
- Math category reached 30% of business revenue; MAU growth near 40% across eight countries.
- Diagnosed US subscription pressure; steered refund rate under 10% and US subscription performance toward 70% of target via segmentation, channel, and experience recommendations.
- Ran structured research program (800+ hours, 300+ users) feeding Disney, Roblox, Tynker partnerships and VP / C-level decisions.

WhiteHat Jr — Manager, new initiatives

2020 – 2021

- Launched 0→1 “Create with Math”: prototype, value proposition testing, beta programs, and GTM with product and curriculum; tracked traction through feedback and NPS.
- Through 2021 absorption into BYJU's Future School, transitioned from single-initiative ownership to portfolio-scale insights and cross-market delivery (next role: Manager, user insights).

Teach For India — Fellow

2017 – 2019 · Cohort 2017 (top ~7% selection)

- Built a real-time classroom dashboard (attendance, behavior, mastery) that shortened teacher intervention cycles roughly 30%.
- Ran mixed-gender sports and equity programming with measurable attendance lift for girls (~18%) and 25% fewer behavioral incidents.
- Added 600+ learning hours through schedule and engagement optimization across 10+ schools.

Scraplabs — Early-stage generalist

2015 – 2017 · National expansion

- Owned fellowship design and marketing collateral; led hiring interviews alongside GTM and expansion sales for North India.
- Grew partner schools from 18 (Delhi NCR) to 80+ nationally.
