CORE SKILLS

Product strategy, roadmaps, stakeholder alignment

Growth and retention diagnostics (subscription, funnel)

UX research at scale; mixed methods + analytics

Design systems, Figma, React Native handoff

AI-assisted workflows; SQL for product insight

Hiring, team leadership, vendor and client cadence

ACHIEVEMENTS & AWARDS

Birlasoft — Customer Centricity; Future Oriented; Birlasoft Values (internal recognition)

BYJU's Future School — Perseverance Award; Enterprising Mind; 10x Thinking 10x Impact (2021–22, internal)

Teach For India — Fellowship cohort selection, top ~7% (2017)

EDUCATION

University of California, San Diego — Interaction Design (2021–2022)

University of Delhi — Business Management (2012–2015)

Google — Fundamentals of UX Design (2021)

EXPERIENCE

Birlasoft — Senior UX Consultant

2022 – present · Stryker (USA), Hewlett Packard Enterprise · Led team of 5 (2 designers, 1 junior UX researcher, 1 UX writer, 1 analyst) · Enterprise delivery pod (narrower span than prior eight-person edtech org)

- Contributed to CX and automation GTM: offerings tied to ~\$2M revenue target, 27 new deals YoY, +25% YoY consulting packages; codified 80+ UX templates to shorten delivery.
- Shipped AI-assisted recommendation and workflow UX for Stryker robotic-surgery operations; paired qualitative study with SQL-driven analytics to clear bottlenecks and align engineering rollout; met 100% on-time CXO milestones on assigned programs.
- Shipped AI-assisted field-service experience for HP (diagnosis, parts ordering, turnaround); tightened decision paths for high-ambiguity agent edge cases.
- Extended design system in Figma for React Native across assigned programs.

WhiteHat Jr → BYJU's Future School

2020 – 2022 · APAC and North America · Post-2021 absorption into BYJU's Future School: remit expanded from new initiatives to portfolio-wide user insights and eight-country delivery

BYJU's Future School — Manager, user insights

2021 – 2022 · Led team of 8 (4 designers, 2 UX writers, 2 analysts)

- Math category reached 30% of business revenue; MAU growth near 40% across eight countries.
- Diagnosed US subscription pressure; steered refund rate under 10% and US subscription performance toward 70% of target via segmentation, channel, and experience recommendations.
- Ran structured research program (800+ hours, 300+ users) feeding Disney, Roblox, Tynker partnerships and VP / C-level decisions.
- Scaled design system of 30+ HCI-oriented components (2× handoff speed, 50% fewer inconsistencies across three squads); six-plus prototypes cut engineering cycle time 25%; launches exceeded 74% adoption.

WhiteHat Jr — Manager, new initiatives

2020 – 2021

- Launched 0→1 “Create with Math”: prototype, value proposition testing, beta programs, and GTM with product and curriculum; tracked traction through feedback and NPS.
- Through 2021 absorption into BYJU's Future School, transitioned from single-initiative ownership to portfolio-scale insights and cross-market delivery (next role: Manager, user insights).

Teach For India — Fellow

2017 – 2019 · Cohort 2017 (top ~7% selection)

- Built a real-time classroom dashboard (attendance, behavior, mastery) that shortened teacher intervention cycles roughly 30%.
- Ran mixed-gender sports and equity programming with measurable attendance lift for girls (~18%) and 25% fewer behavioral incidents.
- Added 600+ learning hours through schedule and engagement optimization across 10+ schools.

Scraplabs — Early-stage generalist

2015 – 2017 · National expansion

- Drove North India expansion sales strategy; designed and owned the Scraplabs fellowship; led hiring screens and marketing assets.
- Grew partner schools from 18 (Delhi NCR) to 80+ nationally.
