RESEARCH AND METHODS

- Large-scale qualitative programs (800+ hours)
- SQL and analytics paired with usability and diary studies
- CXO and VP-facing readouts and workshop facilitation
- Design system adoption and research-design ops
- International studies (eight countries, APAC and North America)
- Team leadership: researchers, writers, designers, analysts

EDUCATION

- University of California, San Diego — Interaction Design (2021–2022)
- University of Delhi — Business Management (2012–2015)
- Google — Fundamentals of UX Design (2021)
- Also open to: design director, senior PM (research-heavy), group PM, head of design — roles where evidence quality sets product pace.

EXPERIENCE

Birlasoft — Senior UX Consultant

- 2022 – present · Stryker (USA), Hewlett Packard Enterprise · Led team of 5 (2 designers, 1 junior researcher, 1 UX writer, 1 analyst) · Enterprise delivery pod (narrower span than prior eight-person edtech org)
- Ran mixed-methods program for Stryker AI-assisted recommendation and workflow UX; plus qualitative study to align clinical and engineering stakeholders; mentored junior UX researcher and aligned writer, designers, analyst to 100% on-time CXO milestones on assigned programs.
 - Contributed to CX and automation GTM: offerings tied to ~\$2M revenue target, 27 new d YoY, +25% YoY consulting packages; codified 80+ UX templates to shorten delivery.
 - Shipped AI-assisted field-service experience for HP (diagnosis, parts ordering, turnaround tightened decision paths for high-ambiguity agent edge cases.
 - Extended design system in Figma for React Native across assigned programs.

WhiteHat Jr → BYJU's Future School

2020 – 2022 · APAC and North America · Post-2021 absorption into BYJU's Future School: reexpanded from new initiatives to portfolio-wide user insights and eight-country delivery

BYJU's Future School — Manager, user insights

- 2021 – 2022 · Led team of 8 (4 designers, 2 UX writers, 2 analysts)
- Ran structured research program (800+ hours, 300+ users) feeding Disney, Roblox, Ty partnerships and VP / C-level decisions.
 - Math category reached 30% of business revenue; MAU growth near 40% across eight countries.
 - Diagnosed US subscription pressure; steered refund rate under 10% and US subscription performance toward 70% of target via segmentation, channel, and experience recommendations.
 - Scaled design system of 30+ HCI-oriented components (2x handoff speed, 50% fewer inconsistencies across three squads); six-plus prototypes cut engineering cycle time 2 launches exceeded 74% adoption.

WhiteHat Jr — Manager, new initiatives

- 2020 – 2021
- Launched 0→1 “Create with Math”: prototype, value proposition testing, beta programs GTM with product and curriculum; tracked traction through feedback and NPS.
 - Through 2021 absorption into BYJU's Future School, transitioned from single-initiative ownership to portfolio-scale insights and cross-market delivery (next role: Manager, user insights).

Teach For India — Fellow 2017 – 2019 · Cohort 2017 (top ~7% selection)

- Built a real-time classroom dashboard (attendance, behavior, mastery) that shortened teacher intervention cycles roughly 30%.
- Ran mixed-methods equity research across 10+ schools; mixed-gender sports program lifted girls' attendance (~18%) and cut behavioral incidents 25%.
- Added 600+ learning hours through schedule and engagement optimization.

Scraplabs — Early-stage generalist 2015 – 2017 · National expansion

- Owned fellowship experience and hiring screens; supported marketing and sales narrative national partner growth.
- Grew partner schools from 18 (Delhi NCR) to 80+ nationally.
